

TrinEDI™ Claims

Electronic Claims

The benefits of sending claims electronically have been clearly documented, with the American Medical Association reporting the cost of paper claims processing to be between \$6 and \$12 per claim. However, all electronic claims processing solutions are not equal; the maze of clearinghouses involved, the lack of visibility in the process, the continual process and software changes that occur, all lead to issues with electronic claims.

The TrinEDI™ Claims

TrinEDI™ Claims allows you to easily submit HIPAA compliant claims, track claim status, and edit pending claims. It works with your existing Practice Management Software and allows you to ensure that claims quickly make it through the adjudication process. TrinEDI™ Claims is the most

comprehensive solution available, providing:

- ▶ All-payer solution with direct connections to most Northwest health plans
- ▶ Provider and Payer specific data mapping and data cleansing
- ▶ On-line, real-time editing of pending claims
- ▶ Easy to use interface
- ▶ Comprehensive reporting capabilities
- ▶ Complete claim history tracked on all claims
- ▶ Ability to send secondary claims electronically

TrinEDI™ Claims Benefits:

- ▶ Get paid faster, with over 70% of claims submitted direct to local payers
- ▶ Reduce unpaid claims
- ▶ Reduce cost and headache with handling claims
 - ▶ Real-time status tracking for quick issue resolution
 - ▶ Easily correct pending claims on-line in seconds
 - ▶ No more duplicate batches or lost transactions
- ▶ Same day setup with no software to install
- ▶ Improved patient experience due to quick payment resolution

Payer Connections
TrinEDI Claims service has made it easy for my staff to find and correct errors on-line. If we have questions or problems, Payer Connection is there to assist us. Money is flowing and our doctors are happy.
